in Roger McIntyre

<https://www.linkedin.com/in/roger-mcintyre-b444a17a/>

Roger leads Surgere's teams in project management, tagging, hardware management, procurement, training, and technical compliance. Roger has successfully established the operations flow by emphasizing training and reports.

Over the past 28 years, he has diversified his knowledge of supply chains, warehouse management, inventory control, innovation, and strategic planning of business and finance. Previously, he was the Department Manager of Supply Chain at Honda of America MFG where he managed more than 2,000 associates at two manufacturing plants, more than 2,000 truckloads of materials, and 6 million repair parts.

Surgere is an industry pioneer leveraging IoT technology to revolutionize the supply chain. Surgere knows the challenges and has engineered innovative secure technology, patented software, and certified hardware to consistently deliver 99.9% data fidelity. Surgere expands visibility into the physical supply chain supporting many of the world's leading industries.
