in Charles Dressler

<https://www.linkedin.com/in/charles-dressler-25090023/>

In his role, Charles is responsible for managing all aspects of the company. He has deep expertise in electrical and systems engineering, research and development, operations, engineering, and financial management. He joined Surgere in 2019.

Charles works throughout Surgere to develop state-of-the-art products, enhance the discovery process in solution architecture, and integrate data into tracking systems. He oversees various processes to optimize solutions for the customer and ensure they have the right level of integration. Charles found and brought many of our best people to Surgere and led a collaboration effort with Microsoft for co-development of IoT engineering solutions.

Previously he was the CIO at Green Circle Growers where he led product integration, manufacturing, and supply chain for the agriculture business. Charles also has 15 years of experience in the aerospace industry where he performed digital circuit design and systems engineering for GPS ground control stations and advanced cruise missile guidance.

Charles has a BS in Electrical Engineering and a MBA from the University of Akron.

Surgere is an industry pioneer leveraging IoT technology to revolutionize the supply chain. Surgere knows the challenges and has engineered innovative secure technology, patented software, and certified hardware to consistently deliver 99.9% data fidelity. Surgere expands visibility into the physical supply chain supporting many of the world's leading industries.
